Introduction to Online Appendix

This Online Appendix is supplementary material for the paper "Anchoring and Interactivity in the Digital Age: How Online Interfaces Reshape Credit Card Repayment Decisions."

This document contains the complete experimental questionnaire, including all instructions, treatment screens, and questions as presented to participants in the pre-registered online experiment. The materials are provided in the order that participants encountered them.

All replication materials for this study, including the pre-registration, ethics documentation, raw data, and analysis code, are publicly available at our GitHub repository: <https://github.com/deniselaroze/Anchoring-and-Interactivity-in-the-Digital-Age>
